MAGNOLIAS by the thousands standing shoulder to shoulder ready to be shipped.

## LIST OF RHODODENDRONS WITH THEIR DESCRIPTIONS

We offer the following true to name hardy hybrid Rhododendrons in strong rooted stem cuttings.

This stock includes many old favorites in a great assortment of colors.

Cuttings taken from selected healthy blooming stock plants.

This material is not to be compared to questionable influx of stock of doubtful name and hardiness.

We have 56 varieties of Rhododendron on the premises and access to a total of 103 varieties.

Stem cuttings with their fresh vigorous supply of roots, make a very strong growth the first season when planted out in spring.

Ready to ship May 1st with a nice peat ball to assure continued healthy growth. No graft weaknesses or suckering to contend with. Upon request, cultural instructions furnished with order.

### THE FOLLOWING RHODODENDRONS ARE \$60 PER HUNDRED:

ALBUM ELEGANS	White - Tall
CARACTACUS	Crimson Red - Good for landscape
CHAS. THOROLD	Violet Red - Green blotch
F.D. GODMAN	Red - Crimson blotch - Vigorous
IGNATIUS SARGENT	Red - Light Center - Nice flower
LEE'S DARK PURPLE	Purple - Interesting foliage
OLD PORT	Plum - Very good landscape plant
PARSON'S GLORIOSUM	Lilac - Large truss - Vigorous
PARSON'S GRANDIFLORUM	Soft Red - Free blooming, hardy
PRESIDENT LINCOLN	Lavender - Strong grower
PURPUREUM ELEGANS	Light Purple - Good foliage
ROSEUM ELEGANS	Mauve Pink - Best landscape plant
ROSEUM SUPERBUM	Soft Pink - Late bloomer

**BELOW:** RHODODENDRON HOUSE - 25,000 rooted Rhododendron hybrid stem cuttings flatted in processed medium. To be shipped after first growth.

# LIST OF RHODODENDRONS WITH THEIR DESCRIPTIONS

(continued)

## THE FOLLOWING RHODODENDRONS ARE \$80 PER HUNDRED:

ALBUM GRANDIFLORA	White - Medium grower
ATROSANGUINEUM	Red - Very hardy
BOULE DE NEIGE	White - Dwarf - Dense grower
BERTHA PARSONS	Pale lilac - Vigorous
CATAWBIENSE ALBUM	White - Very reliable - good habit
CHAS. BAGLEY	Soft Red - Large flowers - vigorous
CHAS. DICKENS	Red - Intermediate in growth
DR. DRESSELHUYS	Aniline Red - Pale throat - tall growth
DR. RUTGERS	Aniline Red - Crimson throat - Compact
ED. S. RAND	Red - Old favorite - Good foliage and habit
EVERESTIANUM	Lavender - Hardiest and best in this class
FASTUOSUM FL. PL.	Lavender - Bud tender north of Philadelphia
GOMER WATERER	White - Large flower - Bud tender north of Philadelphia
KETTLEDROM	Red - Spreading habit
LADY A. DE TRAFFORD	Blush Pink - Chocolate brown blotch
MRS. P. DEN OUDEN	Aniline Red - Dwarf compact grower

EXPERIMENTAL  
GREENHOUSE

Showing Henry Van den Hoorn comparing the results of our "chemurgic processes".

Featured (left to right): (1) Understock seedling - (2) 3-year old understock shortly after grafting, note suckering - (3) Large plant is Own Root stem cutting 6 months old. Chemical treatment and controlled heat contributing factors.

## CULTURAL AID FOR LINING OUT STOCK

ALL BARE ROOT and the following potted material should be planted in beds provided with lath or other suitable shading. Andromeda, Azalea, Gordonia, Leucothoe, Ilex, Magnolia, Berberis, Cotoneaster, etc.

FOR ACID LOVING PLANTS, soil in beds should be enriched with acid leaf mold and decomposed cow manure. Other stock will be greatly aided by aged manure. Peat Moss and screened sand, incorporated with heavy soil, will encourage good root action.

ALL POTTED PLANTS such as Chamaecyparis, Juniperus, Taxus, Thuja, etc. may be lined out in Spring and Early Summer in previously prepared fields.

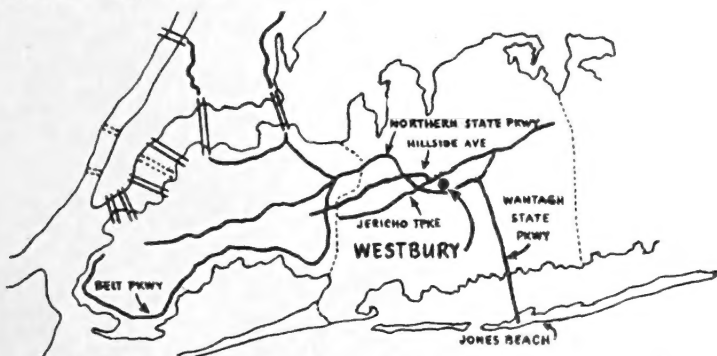

WATERING is important unless planting coincides with a natural rainfall. A good watering at time of planting is advisable, if at all possible. This is to be followed by one or two waterings. During June and July, the beds should be watered but the watering should be tapered off during the latter part of August to prevent late soft growth.

CULTIVATING during summer months is advisable and will be of great help where water is not available.

FEEDING with well rotted manure, as previously stated, should be done at planting time. No stimulant should be applied the first year. If used later, apply early enough to allow growth to harden before frost.

WINTER PROTECTION. Most of the plants will not need shade during late summer, but replacing shading on the beds for winter months is advisable if at all possible.

MULCHING is advisable to prevent heaving and winter injury. Oats broadcasted in September, will form a good mulch in regions where oats winter kills. Oats also check annual grass and chickweed.

## TERMS AND CONDITIONS

THIS LIST cancels all previous quotations. Prices quoted are subject to change without notice and orders are accepted subject to prior sale.

PRICES - quoted per 100: 10% off on 1000 lots, 25 at 100 rate, 250 at 1000 rate - 20% added for less than 10 of a variety sold.

CERTIFICATE - By U.S.D.A. furnished.

PACKING - Free of charge for cash with orders over \$25.00 only.

SHIPPING - from Westbury to destination at cost and risk of purchaser.

PAYMENT - All or 25% cash with order; balance C.O.D. unless otherwise arranged.
